Information for Buyers

This section is a guide to the content of the local authority search result. It should be read in association with the main report. This information should not be considered as legal advice and you should check with your conveyancer and/or surveyor if you have any concerns about the search results.

If you would like to know more about the issues raised, there is a wealth of information available using the keyword search facilities at www.communities.gov.uk/publications or www.direct.gov.uk or www.stlgroup.co.uk

Local Land Charge Entries

The Property is subject to Local Land Charge Entries

What is a Local Land Charge?

Local Land Charges indicate any restrictions or legal obligations placed on a property or land. They are designed to ensure that buyers are informed about any limitations or requirements. Your conveyancer will provide further advice.

The property is subject to 4 Planning Charges - Conditional Planning Consents

What is a Conditional Planning Consent?

The conditions attached to a planning permission are registrable, not the actual application. Conditions placed on any development of property or land will remain registered as legal charges even though ownership of the property may have changed hands several times since the original conditional planning permission.

The property is subject to 2 Miscellaneous Charges - Smoke Control Order

What is a Smoke Control Order?

A Smoke Control Order limits the fuels which you can burn upon the property to smokeless fuels. This does not apply to bonfires.

The property is subject to 1 Miscellaneous Charge - Other charge

What does this mean?

Other Part 4 Miscellaneous charges have been revealed, please see the Local Land Charges report for details of these charges. Your conveyancer will provide further advice.

Planning

This report reveals 1 planning entry since 1 August 1977.

What is a planning entry?

The report shows any planning applications approved, refused or withdrawn for the property. Your Conveyancer will advise whether they need to see full copies of any planning permissions revealed.

When do I need planning permission?

You will probably need Planning Permission to build something new or make changes to your building, for example building an extension or changing the use of the building. Some building projects do not require Planning Permission; this is known as Permitted Development Rights. Please let your Conveyancer and your Surveyor know if you are aware of any other alterations which do not appear on this list. Permission may not have been required, but your Conveyancer will advise you if there are any concerns. Do not approach the Council direct without first speaking with your Conveyancer, as it could limit your options.

If Planning Permission had been required but was not obtained, you may wish to obtain insurance against enforcement by the Local Authority. Your Conveyancer will confirm whether insurance is an option.

What about planning applications for nearby properties?

Please note that this report does not consider planning applications or permissions relating to other properties nearby. You can obtain this information via a Planning report which may also include information about the neighbourhood such as rights of way, local amenities, average house prices and council tax bands, local schools, colleges and performance tables, theft insurance claims and more.

Building Regulations

This report reveals no building regulation entries since 1 November 2000.

What does this mean?

The report shows no Building Regulations entries. Please let your Conveyancer and your Surveyor know if there are any alterations which do not appear to have consent.

Do not approach the Council direct without first checking with your Conveyancer, as it will limit your options.

Consent may not have been required but your Conveyancer will advise you if there are any concerns or whether you should consider insurance.

What are Building Regulations?

Building Regulations apply to building work in England and Wales. They set standards for the design and construction of buildings to ensure the safety and health for people in or about those buildings. They also include requirements to ensure that fuel and power is conserved and facilities are provided for people, including those with disabilities, to access and move around inside buildings. Consent may not have been required but your Conveyancer will advise you if there are any concerns or whether you should consider insurance.

Is Building Regulations approval the same as planning permission?

Building Regulations approval is a completely separate matter from obtaining planning permission for any proposed work. Similarly, receiving planning permission is not the same as taking action to ensure it complies with the Building Regulations. The responsibility for checking that Buildings Regulations have been met usually falls to a Local Authority Building Inspector.

Local Area Land Use

The report reveals the following

Within:

- Area Panel Boundary
- South Yorkshire Forest Boundary
- General Employment Area

What does this mean?

Land Use Designations indicate the primary use for the area as decided by the Local Authority. If this will affect your intended use of the property, please contact your Conveyancer. Further information about land use can be obtained from the Local Authority shown on the front of this report.

What is a Development Plan/Local Plan?

Development plans set out the local planning authority's policies and proposals for the development and use of land in their area. The development plan guides and informs on day-to-day decisions as to whether or not planning permission would be granted.

Road Maintenance

Carley Drive is highway maintainable at public expense

What does this mean?

If a highway is classed as "highway maintainable at public expense" it will be maintained by the Highways Authority (Local Authority, County Council, Transport for London or Highways England). Some highways will be maintained by the Local Authority Housing Department/Housing Association. If the highway is not maintained by any of the above, then maintenance responsibility usually falls to the owners of the property fronting that part of the road.

Road, Rail and Traffic Schemes

The report reveals the following

The property is within a local authority area that will be affected by the High Speed 2 (HS2) route. For more information, please visit www.dft.gov.uk/publications/hs2-maps-20120110. Alternatively, please contact us to order an Energy & Infrastructure Report (HS2).

What does this mean?

There are proposed transport schemes near to the land.

Community Infrastructure Levy (CIL)

A Community Infrastructure Levy (CIL) Charging Schedule is in force

What is a Community Infrastructure Levy?

A CIL allows the Local Authority to raise funds from developers undertaking new building projects in the area. The money can be used to fund a wide range of infrastructure that is needed as a result of the development. The Local Authority has to adopt a charging schedule that sets out the levy rates. Your conveyancer should check you have no assumed CIL liability.

Contaminated Land

The report has not revealed any records of contamination held by the Local Authority

Hazards Identified

As hazards have been identified for this property, we strongly recommend the following report(s) :

Review (GroundSure)

GroundSure Energy Report (Commercial)

Coal & Brine Report

What should I do?

The Local Authority is obliged to identify contaminated land sites and issue 'remediation' or clean up notices to the homeowner or developer of the land. Land is usually contaminated due to past industrial use. However, not all contaminated land has been identified by the Local Authority. It is for this reason that your Conveyancer may have ordered an Environment Report - which is recommended for all properties - or insurance.

What does this mean?

Certain parts of the UK are at risk of hazards caused by flooding, mining activity, Radon gas or other reasons. These hazards have the potential to cause subsidence or have a negative effect on health. If you are buying property or land in Cornwall, for example, your mortgage lender will usually require a tin mining search which will identify current, planned or historic underground workings, and may indicate if any previous claims have been made for subsidence. A flood report will provide you with a detailed assessment of flood risk, flood defences and the potential impact on insurance for the property.

What is a Review (GroundSure)?

A complete commercial property environmental due diligence report with a full flood risk assessment including river, tidal, groundwater and pluvial and an opinion on the likely availability of flood risk insurance.

What is a GroundSure Energy Report (Commercial)?

This report provides information on existing and potential large scale energy infrastructure or exploration projects in the area including fracking sites (hydraulic fracturing), oil and gas exploration and extraction areas, power stations, wind farms and turbines.

What is a Coal & Brine Report?

Reveals if the property is in an area where coal mining has or likely to take place; the existence of underground coal workings and mine entries which may cause problems or subsidence.

What hazards do you check for?

- Flood risk (rivers or coastal, groundwater and surface water)
- Subsidence risk
- Ball clay mining
- Cheshire brine
- Coal mining
- Limestone mining
- Tin mining
- Radon gas
- Fracking / energy exploration
- Wind farms and turbines
- The proposed High Speed 2 rail link (between London, Birmingham, Manchester and Leeds)

Hazard alerts are based on data from the Environment Agency, Coal Mining Authority and other authoritative sources.
