

Energy

Groundbreaking energy intelligence

This report provides purchasers with accurate, easy-to-read information, detailing all sorts of energy matters – hydraulic fracturing [‘fracking’] shale gas sites, oil, gas and coalbed methane exploration/ extraction sites, wind farms, solar farms, power stations and major energy infrastructure.

Plus, there’s critical details on future developments in these areas. This is a UK-wide report and offers the highest level of detail with no further costs.

KEY FACTS

RRP	£30 _(ex. VAT)
Delivery Time	<24hrs
Reliance	£10m*

Key features:

- Existing and planned hydrocarbon exploration and extraction sites, searched to 25km
- Existing and planned licensing blocks (areas which could be licensed for exploration), searched to 25km
- Existing and planned wind farms, searched to 15km
- Existing and planned power stations and large scale energy infrastructure, searched to 25km
- Existing, planned and decommissioned nuclear power stations and infrastructure, searched to 25km
- Planned single wind turbine applications, searched to 5km
- Existing and planned solar farms with a greater than 1MW generating capacity

Advantages:

- The most up to date, comprehensive database of existing and planned sites available
- Large search radii to ensure all possible issues are identified
- Where planned sites are identified, full planning application details are provided for further investigation

Benefits:

- The only commercially available report which details future site-specific developments, utilising datasets exclusive to Groundsure
- Only report available which details existing extraction and exploration sites
- Information on future shale gas, oil, gas and coalbed methane developments updated weekly

*** Reliance:**

£10m Professional Indemnity Insurance (any one claim). Can be relied upon by all professional parties within a property transaction, first purchasers / tenants and their advisers. See section 4 and 7 of the Groundsure terms and Conditions.

Terms:

Issued under Groundsure single set of terms and conditions
